Relocating machinery and production lines made easy

Service & Solutions

At Netstal we strive to ensure complete customer satisfaction at all times, which is why we provide a service that can take you all the way from A to Z in expert hands.

From A-Z in expert hands

If you are looking to relocate your production line and injection molding machines, we do not think you will find a better partner than Netstal. Netstal has acquired its expertise in machine and production-line relocation from decades of experience in manufacturing injection molding machines and excellent customer service. You will not find our level of expert knowledge anywhere else.

Thanks to our worldwide service network and numerous contacts to various logistics partners, Netstal is in the perfect position to relocate your machine from its current site to any location of your choosing. You do not have to worry about a thing. Netstal plans and organizes everything for you – from preparing the machines for transport to recommissioning them at your new site.

This makes sure that your Netstal machines will start again without any problems.

Your benefits:

- A complete range of services from a single partner
- Relocation costs can be calculated quickly
- Professionals take care of your relocation project

The specialists at Netstal support you anywhere in the world.

1. Startup

2. Utilization

3. Optimization

4. Phase-out

With Service & Solutions, we give you optimal support throughout the entire lifecycle of the machine – from startup, through utilization and optimization to phase-out.

By providing solution-driven services and products, we help you maintain optimal production efficiency and thereby secure your investment.
